

LONG LIFE Plus

What is **Long Life Plus**?? It is one of the most powerful **antioxidants** on the market today! And what are **antioxidants**? Antioxidants are substances that donate electrons to **free radicals**, thereby preventing them from stealing electrons from other molecules. And what are **free radicals**? Free radicals are oxygen molecules or complexes with an unpaired electron. Without the appropriate balance of the missing electron, the molecule spins erratically, until it bumps into a molecule that has another electron it can steal. This leaves another molecule with an unpaired electron and **it** becomes a **free radical**. This creates a chain reaction that can eventually destroy cell membranes, damage tissue, disrupt important physiologic processes and create mutations in **DNA** cells.

Free radicals may be produced from normal oxygen metabolism within the body or from exposure to certain chemicals, environmental pollutants, sunlight, radiation, burns, cigarette smoke, drugs, alcohol, viruses, bacteria, parasites, dietary fats, and more. **Free radicals** degrade collagen, reprogram **DNA**, and are implicated in more than 60 diseases, including heart disease, arteriosclerosis, arthritis, cataracts, and cancer.

Long Life Plus is a **powerful antioxidant** made from concentrated grape seeds. Grape seed contains **proanthocyanidin** that is **20 times more potent than Vitamin C** and **50 times more potent than Vitamin E**. It is simply the most potent and powerful antioxidant yet to be discovered. (Clinical tests have proven grape seed to be the best source for proanthocyanidin).

Long Life Plus with grape seed proanthocyanidin remains in the body in an active state for 72 hours and produces the following effects:

- Captures and neutralizes free radicals,
- Prevents and relieves poor circulation,
- Strengthens collagen,
- Prevents and arrests internal bleeding,
- Prevents menstrual cramps,

- Corrects abnormal menstrual bleeding,
- Prevents and reduces edemas,
- Reduces excessive blood sugar,
- Prevents and relieves rheumatism,
- Prevents and relieves dry skin,
- Prevents and relieves varicose veins,
- Relieves bruises,
- Helps relieve hay fever and asthma,
- Prevents vascular and cerebral accidents such as stroke and heart attack,
- Prevents and relieves sexual inadequacy in some men,
- Strengthens the vascular system,
- Crosses the blood brain-barrier,
- Prevents and repairs inflamed tissue,
- Prevents and relieves hemorrhoids,
- Relieves stress,
- Prevents and relieves arthritis,
- Prevents and relieves phlebitis,
- Prevents jet-lag,
- Helps to improve stamina, and
- Prevents and relieves liver disease.
